Story #13: All Transactions		Priority	Medium
		Effort	5
As a	Admin		
I want	To be able to see the all current and past transactions		
So that	I can keep track of my platform's business		

Acceptance Criteria	<p>Criterion 1:</p> <p>Given</p> <ul style="list-style-type: none"> - My computer has internet access - I am logged in as an admin - I am on the Transactions Tab. - Query to database didn't timeout <p>When</p> <ul style="list-style-type: none"> - I choose a time period and click ok <p>Then</p> <ul style="list-style-type: none"> - The website will display all transactions in that time period. <p>Criterion 2:</p> <p>Given</p> <ul style="list-style-type: none"> - My computer has internet access - I am logged in as an admin - I am on the Transactions Tab. - Query to database timeouts <p>When</p> <ul style="list-style-type: none"> - I choose a time period and click ok <p>Then</p> <ul style="list-style-type: none"> - The website will display an error message describing the error.

Story #14: Order Status		Priority	Medium
		Effort	5
As a	Customer		
I want	To be able to view my current order status		
So that	I know when my order will arrive.		

Acceptance Criteria	<p>Criterion 1:</p> <p>Given</p> <ul style="list-style-type: none"> - My computer has internet access - I am logged in as a customer. - The order is confirmed and has been placed. - I am on the profile page <p>When</p> <ul style="list-style-type: none"> - I click orders tab <p>Then</p> <ul style="list-style-type: none"> - The website will display the current status of that particular order. <p>Criterion 2:</p> <p>Given</p> <ul style="list-style-type: none"> - My computer has internet access - I am logged in as an customer - I have placed an order but it has not been confirmed yet. - I am on the profile page <p>When</p> <ul style="list-style-type: none"> - I click orders tab <p>Then</p> <ul style="list-style-type: none"> - The website will not display any orders in the orders tab. <p>Criterion 3:</p> <p>Given</p> <ul style="list-style-type: none"> - My computer has internet access - I am logged in as an customer - I have not placed an order. - I am on the profile page <p>When</p> <ul style="list-style-type: none"> - I click orders tab <p>Then</p> <ul style="list-style-type: none"> - The website will not display any orders in the orders tab.
---------------------	---

Story #15: Post new books		Priority	High
		Effort	2
As a	Publisher		
I want	To be able to post new books in the website		
So that	I can sell them		

Acceptance Criteria	Criterion 1: Given <ul style="list-style-type: none"> - That I am on the website - And that I have signed in as a publisher When <ul style="list-style-type: none"> - I choose a book to add to my listings - And provide valid details for the book Then <ul style="list-style-type: none"> - A listing for the book is created Criterion 2: Given <ul style="list-style-type: none"> - That I am on the website - And that I have signed in as a publisher When <ul style="list-style-type: none"> - I go to purchase a book - And I have signed into PayPal - And the payment was unsuccessful Then <ul style="list-style-type: none"> - An error message is displayed on the screen "Payment was unsuccessful, please contact PayPal for more information"
---------------------	--

Story #16: Preview the Book Cover		Priority	Low
		Effort	2
As a	Public user		
I want	To see the book cover image		
So that	I can decide if I want to read this book		
Acceptance Criteria	Criterion 1: Given <ul style="list-style-type: none">- That I am on the website- And that I have signed in When		

	<ul style="list-style-type: none"> - I search for a book that exist in the database system - And I press enter Then <ul style="list-style-type: none"> - The Book should appear with its cover image Criterion 2: Given <ul style="list-style-type: none"> - That I am on the website - And that I have signed in When <ul style="list-style-type: none"> - I search for a book that exist in the database system - And I press enter - And I get disconnected from internet Then <ul style="list-style-type: none"> - An error message pops on the screen “ Something went wrong” -
--	--

Story #17: Download Book report in a CSV format		Priority	Low
		Effort	2
As a	Admin		
I want	To be able to download different reports of books in CSV		
So that	I can store the information for later usage		
Acceptance Criteria	Criterion 1:		
	Given		
	<ul style="list-style-type: none">- That I am signed in as in Admin- And I am on the admin page- And I am on the section where all the Book reports are present		
	When		
	<ul style="list-style-type: none">- I click on “download report”- And I have internet connection		
	Then		
	<ul style="list-style-type: none">- A report is downloaded in a CSV format.		
	Criterion 2:		
	Given		
	<ul style="list-style-type: none">- That I am signed in as in Admin		

	<ul style="list-style-type: none"> - And I am on the admin page - And there is no report on the system <p>When</p> <ul style="list-style-type: none"> - I click on “download report” - And I have internet connection <p>Then</p> <ul style="list-style-type: none"> - A dialog box is appeared with a message “ Unable to Download as no report is available” <p>Criterion 3:</p> <p>Given</p> <ul style="list-style-type: none"> - That I am signed in as in Admin - And I am on the admin page - And I am on the section where all the Book reports are present <p>When</p> <ul style="list-style-type: none"> - I click on “download report” - And internet connection get disrupted <p>Then</p> <ul style="list-style-type: none"> - No report is downloaded - And an error message pops on the screen “ Something went wrong”
--	---

Story #18: Download user transaction in a CSV format		Priority	Low
		Effort	2
As a	Admin		
I want	To be able to download user transactions		
So that	I can preview and keep a record of the details offline in CSV format		

Acceptance Criteria	<p>Criterion 1:</p> <p>Given</p> <ul style="list-style-type: none"> - That I am signed in as in Admin - And I am on the admin page - And I am on the section where all the user transaction reports are present <p>When</p> <ul style="list-style-type: none"> - I click on “download report” - And I have internet connection <p>Then</p> <ul style="list-style-type: none"> - A report is downloaded in a CSV format. <p>Criterion 2:</p> <p>Given</p> <ul style="list-style-type: none"> - That I am signed in as in Admin - And I am on the admin page - And there is no user transaction on the system <p>When</p> <ul style="list-style-type: none"> - I click on “download report” - And I have internet connection <p>Then</p> <ul style="list-style-type: none"> - A dialog box is appeared with a message “ Unable to Download as no report is available” <p>Criterion 3:</p> <p>Given</p> <ul style="list-style-type: none"> - That I am signed in as in Admin - And I am on the admin page - And I am on the section where all the user transaction reports are present <p>When</p> <ul style="list-style-type: none"> - I click on “download report” - And internet connection get disrupted <p>Then</p> <ul style="list-style-type: none"> - No report is downloaded - And an error message pops on the screen “ Something went wrong”
---------------------	---

Story #20: User want to update review	Priority	Low
	Effort	3

As a	Customer
I want	To be able to edit my past review,
So that	I can edit typos in my review.
Acceptance Criteria	<p>Criterion 1:</p> <p>Given</p> <ul style="list-style-type: none"> - I am logged in customer - And that I have posted a review in past <p>When</p> <ul style="list-style-type: none"> - I click on edit review button - And I write my review - And I click on “yes” to the pop confirmation message - And I click on the submit button <p>Then</p> <ul style="list-style-type: none"> - The review is successfully updates and submitted - And the review is visible on the website <p>Criterion 2:</p> <p>Given</p> <ul style="list-style-type: none"> - I am not logged in the website - And that I have posted a review in past <p>When</p> <ul style="list-style-type: none"> - I click on edit review button <p>Then</p> <ul style="list-style-type: none"> - Website is redirected to the login page. <p>Criterion 3:</p> <p>Given</p> <ul style="list-style-type: none"> - I am logged in customer - And that I have posted no review in website <p>When</p> <ul style="list-style-type: none"> - I click on edit review button <p>Then</p> <ul style="list-style-type: none"> - A dialog box appear “You haven't added any reviews in this website” - And it takes me to the homepage of website <p>Criterion 4:</p> <ul style="list-style-type: none"> - I am not logged in the website - And that I have posted a review in past <p>When</p> <ul style="list-style-type: none"> - I click on edit review button - And I edit my review

	<ul style="list-style-type: none"> - And I click on “yes” to the pop confirmation message - And I click on the submit button - And the internet connection get disrupted <p>Then</p> <ul style="list-style-type: none"> - The review doesn't get submitted - And an error message pops on the screen “ Something went wrong”
--	--

Story #21: Add Review for a Publisher/ Shop Owner		Priority	Low
		Effort	3
As a	Customer		
I want	To be able to add a review for a user that I bought books from		
So that	I can recommends to others to buy from the same seller		
Acceptance Criteria	<p>Criterion 1:</p> <p>Given</p> <ul style="list-style-type: none">- I am logged in customer- And that I have purchased a book in past from a shop owner/ publisher <p>When</p> <ul style="list-style-type: none">- I click on add review for shop owner button- And I write my review- And I click on “yes” to the pop confirmation message- And I click on the submit button <p>Then</p> <ul style="list-style-type: none">- The review is successfully submitted- And the review is visible on the website <p>Criterion 2:</p> <p>Given</p> <ul style="list-style-type: none">- I am not logged in the website- And that I have purchased a book in past from a shop owner/ publisher		

	<p>When</p> <ul style="list-style-type: none"> - I click on add review for shop owner button <p>Then</p> <ul style="list-style-type: none"> - Website is redirected to the login page. <p>Criterion 3:</p> <p>Given</p> <ul style="list-style-type: none"> - I am logged in customer - And that I have not purchased any book from a shop owner - I click on add review button <p>Then</p> <ul style="list-style-type: none"> - A dialog box appear “You haven't purchased any book from this Publisher/ Shope owner” - And I am unable to add my review in website <p>Criterion 4:</p> <p>Given</p> <ul style="list-style-type: none"> - I am logged in customer - And that I have purchased a book in past from a shop owner/ publisher <p>When</p> <ul style="list-style-type: none"> - I click on add review for shop owner button - And I write my review - And I click on “yes” to the pop confirmation message - And I click on the submit button - And the internet connection get disrupted <p>Then</p> <ul style="list-style-type: none"> - The review doesn't get submitted - And a n error message pops on the screen “ Something went wrong”
--	--

Story #22: User want to delete review		Priority	Low
		Effort	3
As a	Customer		
I want	To be able to delete my review		
As my	opinion on the book has changed		

Acceptance Criteria	<p>Criterion 1:</p> <p>Given</p> <ul style="list-style-type: none"> - I am logged in customer - And that I have posted a review in past <p>When</p> <ul style="list-style-type: none"> - I click on delete review button - And I click on "yes" to the pop confirmation message <p>Then</p> <ul style="list-style-type: none"> - The review is successfully deleted - And the review is no more visible on the website <p>Criterion 2:</p> <p>Given</p> <ul style="list-style-type: none"> - I am not logged in the website - And that I have posted a review in past <p>When</p> <ul style="list-style-type: none"> - I click on delete review button <p>Then</p> <ul style="list-style-type: none"> - Website is redirected to the login page. <p>Criterion 3:</p> <p>Given</p> <ul style="list-style-type: none"> - I am logged in customer - And that I have posted no review in website <p>When</p> <ul style="list-style-type: none"> - I click on delete review button <p>Then</p> <ul style="list-style-type: none"> - A dialog box appear "You haven't added any reviews in this website" - And it takes me to the homepage of website <p>Criterion 4:</p> <ul style="list-style-type: none"> - I am not logged in the website - And that I have posted a review in past <p>When</p> <ul style="list-style-type: none"> - I click on delete review button - And I click on "yes" to the pop confirmation message - And I click on the submit button - And the internet connection get disrupted <p>Then</p> <ul style="list-style-type: none"> - The review doesn't get deleted from the website - And an error message pops on the screen "Something went wrong"

Story #23: Blocking inappropriate user	Priority	Medium
--	----------	--------

		Effort	5
As a	Admin		
I want	To be able to block the user		
So that	I can avoid inappropriate behaviour on the website

Story #27: Viewing Table of Content	Priority	Low
-------------------------------------	----------	-----

		Effort	2
As a	Public User		
I want	To read/check out the table of content		
So that	I know it is the right book I am looking for.		
Acceptance Criteria	<p>Criterion 1: Given</p> <ul style="list-style-type: none">- That I am logged into my user account <p>When</p> <ul style="list-style-type: none">- I click into a book page <p>Then</p> <ul style="list-style-type: none">- The book page is shown- And the table of contents is there <p>Criterion 2: Given</p> <ul style="list-style-type: none">- That I am logged out of my user account <p>When</p> <ul style="list-style-type: none">- I click into a book page <p>Then</p> <ul style="list-style-type: none">- The book page is shown- And the table of contents is there. <p>Criterion 3: Given</p> <ul style="list-style-type: none">- That I am logged out of my user account- And my internet connection got cut off <p>When</p> <ul style="list-style-type: none">- I click into a book page <p>Then</p> <ul style="list-style-type: none">- Then an error message is displayed “Something went wrong”- And I cannot see the table of content		

Story #28: Searching books by author	Priority	Low
--------------------------------------	----------	-----

		Effort	2
As a	Public User		
I want	To search books by specific author		
So that	I can see what books they have written.		
Acceptance Criteria	<p>Criterion 1: Given</p> <ul style="list-style-type: none">- That I am on the website <p>When</p> <ul style="list-style-type: none">- I click the search bar- And enter an valid author's name <p>Then</p> <ul style="list-style-type: none">- A page is shown with books of the author <p>Criterion 2: Given</p> <ul style="list-style-type: none">- That I am on the website <p>When</p> <ul style="list-style-type: none">- I click the search bar- And enter an invalid author name <p>Then</p> <ul style="list-style-type: none">- An error message pops up "Author not Found"- <p>Criterion 3: Given</p> <ul style="list-style-type: none">- That I am on the website <p>When</p> <ul style="list-style-type: none">- I click the search bar- And enter an valid author's name- And my internet connection get disrupted <p>Then</p> <ul style="list-style-type: none">- An error message pops up "Something went wrong"- And nothing get displayed on the screen		

Story #29: Search a book by ISBN		Priority	Low
		Effort	4
As a	Public User		
I want	To be able to search a book by its ISBN number		
So that	I can get rid of books that I don't require		
Acceptance Criteria	<p>Criterion 1:</p> <p>Given</p> <ul style="list-style-type: none">- That I have stable internet connection- And I am on the website homepage <p>When</p> <ul style="list-style-type: none">- I click on the search bar- And enter a valid ISBN number <p>Then</p> <ul style="list-style-type: none">- I am presented with the book listing in the search results section <p>Criterion 2:</p> <ul style="list-style-type: none">- That I have stable internet connection- And I am on the website homepage <p>When</p> <ul style="list-style-type: none">- I click on the search bar- And enter an invalid ISBN number <p>Then</p> <ul style="list-style-type: none">- I get an error message "ISBN number not found"- And no book get displayed on the screen		

Story #30: Update account information		Priority	Low
		Effort	3

As a	Customer
I want	To be able to edit my address, contact and other details in my profile
So that	I can keep my profile up to date
Acceptance Criteria	<p>Criterion 1:</p> <p>Given</p> <ul style="list-style-type: none"> - That I am logged into the application <p>When</p> <ul style="list-style-type: none"> - I click on my profile page - And I click on edit button - And update individual fields with new information - And I click on save button <p>Then</p> <ul style="list-style-type: none"> - My personal details are updated <p>Criterion 2:</p> <p>Given</p> <ul style="list-style-type: none"> - That I am logged into the application <p>When</p> <ul style="list-style-type: none"> - I click on my profile page - And I click on edit button - And update individual fields with new information - And my internet connection gets disrupted <p>Then</p> <ul style="list-style-type: none"> - An error message pops up "Something went wrong" - My personal details are not updated <p>Criterion 3:</p> <p>Given</p> <ul style="list-style-type: none"> - That I am not logged into the application <p>When</p> <ul style="list-style-type: none"> - I click on my profile page to update my account information <p>Then</p> <ul style="list-style-type: none"> - The website redirects me to the login page in order to sign in first before updating my profile.

Story #31: Use pre-saved details for faster checkout	Priority	Low
--	----------	-----

		Effort	2
As a	Customer		
I want	To be able to use information saved on my profile		
So that	I can checkout faster		
Acceptance Criteria	<p>Criterion 1:</p> <p>Given</p> <ul style="list-style-type: none">- That I have selected at least one item to checkout- And I have saved my details previously <p>When</p> <ul style="list-style-type: none">- I click on the checkout button <p>Then</p> <ul style="list-style-type: none">- I am successfully led to the pre-filled checkout page of the application- And I can finish my order without entering my details again <p>Criterion 2:</p> <ul style="list-style-type: none">- That I am on the application's home page- And I have never entered my details to be preserved <p>When</p> <ul style="list-style-type: none">- I click on the checkout button- And enter an invalid ISBN number <p>Then</p> <ul style="list-style-type: none">- I am led to the checkout page of the application- And the page is not pre-filled with my details		

Story #32: Read website information	Priority	Low
	Effort	1

As a	Customer
I want	To be able to read information about the website
So that	I know what all services are provided by this website
Acceptance Criteria	<p>Criterion 1: Given</p> <ul style="list-style-type: none"> - That I am on the application's home page <p>When</p> <ul style="list-style-type: none"> - I scroll to the bottom of the site - And click on the 'About us' link <p>Then</p> <ul style="list-style-type: none"> - I get redirected to a page describing all features provided by the BOOKEROO application <p>Criterion 2: Given</p> <ul style="list-style-type: none"> - That I am on the application's home page <p>When</p> <ul style="list-style-type: none"> - I scroll to the bottom of the site - And click on the 'About us' link - And my internet connection gets disrupted <p>Then</p> <ul style="list-style-type: none"> - An error message pops "Something went wrong" - And no information gets displayed on the screen

Story #33: View contact information	Priority	Low
	Effort	1

As a	Customer
I want	To be able to see contact information
So that	I can contact the owner of the website if problem arises
Acceptance Criteria	<p>Criterion 1: Given</p> <ul style="list-style-type: none"> - I am logged in the website - And that I am on the websites home page <p>When</p> <ul style="list-style-type: none"> - I scroll to the bottom of the site - And click on the 'Contact us' link - And describe my problem in the text box and hit submit <p>Then</p> <ul style="list-style-type: none"> - A pop up gets generated confirming that my problem has been sent to the developers. <p>Criterion 2: Given</p> <ul style="list-style-type: none"> - I am not logged in the website - And that I am on the websites home page <p>When</p> <ul style="list-style-type: none"> - I scroll to the bottom of the site - And click on the 'Contact us' link - And I click on help button - And describe my problem in the text box and hit submit <p>Then</p> <ul style="list-style-type: none"> - Website redirects me to the log-in page <p>Criterion 3: Given</p> <ul style="list-style-type: none"> - I am logged in the website - And that I am on the websites home page <p>When</p> <ul style="list-style-type: none"> - I scroll to the bottom of the site - And click on the 'Contact us' link - And describe my problem in the text box and hit submit - And my internet connection get disrupted <p>Then</p> <ul style="list-style-type: none"> - An error message pops "Something went wrong" - And my problem doesn't get sent to developers

Story #34: Reset password		Priority	Low
		Effort	3
As a	User		
I want	To be able to rest my password		
So that	I do not have to make a new account and lose all of my data stored in my account		
Acceptance Criteria	<p>Criterion 1:</p> <p>Given</p> <ul style="list-style-type: none">- That I am on the website- And I have an existing account on the application- And I am not logged in <p>When</p> <ul style="list-style-type: none">- I click on the reset password button- And I answer the security questions correctly- And I input new password- And I click on the apply button <p>Then</p> <ul style="list-style-type: none">- My password is successfully updated. <p>Criterion 2:</p> <p>Given</p> <ul style="list-style-type: none">- That I am on the website- And I have an existing account on the application- And I am not logged in <p>When</p> <ul style="list-style-type: none">- I click on the reset password button- And I do not answer the security questions correctly <p>Then</p> <ul style="list-style-type: none">- An error message is displayed on the screen saying “Password reset was not successful”- And I am prompted to try again.		

Story #35: Publisher wants to recommend books to its user		Priority	Low
		Effort	8
As a	Publisher		
I want	recommend my books to my customers,		
So that	Other users can enjoy my books.		
Acceptance Criteria	<p>Criterion 1:</p> <p>Given</p> <ul style="list-style-type: none">- That I am logged in as Publisher- And users have bought book from me in past- And I add a new book to the website <p>When</p> <ul style="list-style-type: none">- I click on publish button <p>Then</p> <ul style="list-style-type: none">- A recommending email is sent to all my past users <p>Criterion 2:</p> <p>Given</p> <ul style="list-style-type: none">- That I am logged in as Publisher- And I have no users who have bought book from me in past- And I add a new book to the website <p>When</p> <ul style="list-style-type: none">- I click on publish button <p>Then</p> <ul style="list-style-type: none">- No recommended email is sent to users.- And the Book is added to the website. <p>Criterion 3:</p> <p>Given</p> <ul style="list-style-type: none">- That I am logged in as Publisher- And users have bought book from me in past- And I add a new book to the website <p>When</p> <ul style="list-style-type: none">- I click on publish button- And my internet connection gets disrupted <p>Then</p> <ul style="list-style-type: none">- No book is added to the website		

	<ul style="list-style-type: none"> - No recommending email is sent to users - And a message "Something went wrong" pops up
--	--

Story #36: User want to recommend a book		Priority	Low
		Effort	8
As a	User		
I want	To recommend books that I have brought,		
So that	I can share my experience with other users		
Acceptance Criteria	Criterion 1: Given <ul style="list-style-type: none">- That I am logged in user- And that I have purchased a book in past When <ul style="list-style-type: none">- I click on recommend button- And I recommend a book a that I read in the past Then <ul style="list-style-type: none">- My recommendation become visible on the website		
	Criterion 2: Given <ul style="list-style-type: none">- That I am logged in user- And that I have purchased a book in past When <ul style="list-style-type: none">- I click on recommend button- And I recommend a book a that I have not read in the past Then <ul style="list-style-type: none">- An error message pops up “You can only recommend the books that you read in past”- And I am unable to recommend the book		

	<p>Criterion 3:</p> <p>Given</p> <ul style="list-style-type: none">- That I am not logged in website- And that I have purchased a book in past <p>When</p> <ul style="list-style-type: none">- I click on recommend button <p>Then</p> <ul style="list-style-type: none">- Website redirects me to Log in page <p>Criterion 4:</p> <p>Given</p> <ul style="list-style-type: none">- That I am logged in user- And that I have purchased a book in past <p>When</p> <ul style="list-style-type: none">- I click on recommend button- And I recommend a book a that I read in the past- And my internet connection gets disrupt <p>Then</p> <ul style="list-style-type: none">- I get an error message "Something went wrong"- And my recommendation is not visible on the website
--	---
